The older cosmos bank application stopped working (IM Banking) so downloaded this application. The application opens on the home page and does not respond further. Tried uninstalling the app and reinstalling again, still not working. What am I supposed to do? Also internet banking website is not working on the mobile device. Have no option but to use laptop for the banking needs. Please please solve the matter as soon as possible as I need to use the application on a daily basis.

Please resolve the issue on urgent basis.:

New app does not open in mobile.

Old app is gone.

Bank employees doesn't have any idea.

Need quick update:

App doesn't open. Cosmos bank doesn't respond to emails. As a result, you need to physically go to the bank to transact.

Very sorry state of affairs.:
